Batch 3

24th - 27th November, 2021
## (online)

Google Classroom
for Social Sector
Organizations - Fundamentals,
Features and Assessment
A Virtual Masterclass

4:00 PM to 6:00 PM

2 Hrs./day
(Total 8 Hrs.)

The Context

The COVID-19 induced lockdown has affected millions of students worldwide due to school closures. With this, the world has seen a distinctive rise in e-learning. However, there are serious concerns regarding the preparedness of institutes and teachers to deliver quality education to these children.

Even before the pandemic there was a high growth and adoption in education technology and it appears that the surge will continue even after things normalize. E-learning, undoubtedly, has its benefits. With the right tools and skills, teachers can reach out to students even in the remote parts of the world, with distance and time no longer being challenges. Affordability and accessibility of technology, however, still remain a major roadblock to ensuring quality education to one and all.

With this in mind, CSRBOX, has partnered with Learning Matters, and has created a bespoke virtual masterclass for teachers and trainers to learn how to use freely available Google tools for online classrooms. The Google tools, although free, require technical knowledge to be utilized optimally, which is exactly what this masterclass will deliver.

Join us for the four-day hands-on virtual masterclass on 'Google Classrooms for Social Sector Organizations- Fundamentals, Features and Assessment' to upskill and conduct your own online classrooms.

The Masterclass

Google Classroom is the preferred choice of many schools for their online classroom solutions as it is available for free usage to educational institutions. It is a simple and robust Learning Management System (LMS) important for the purpose of conducting LIVE classes, content management, presentations, assessments, evaluation, and collaborative learning. This system with seamless interoperability features furthermore offers many Google apps such as Calendar, Maps, Jamboard, etc., which can be used very effectively for conducting online sessions.

This short 4-day course is designed for social sector professionals, CSR teams and educators who want to explore and design holistic online classrooms. Participants will be able to test their learning through quizzes and assignments and will receive a certification based on one final assessment.

Certificate of Participation

Participants will receive an e-certificate on behalf of Learning Matters and Impact Academy on successful completion of the 4-day masterclass.

Topics Covered

Day 1

Opening the Classroom

Devices and Connectivity
- Devices that support Google Classroom works and variations in features
- Internet connectivity

Domain Names
- How to get one?
- Types of accounts
- Getting domain name for schools/educational institutions

Google Suite for Education (Opening G Suite Edu Account)
- Buying domain name for your school
- Creating G Suite account for your organisation

Classroom Environment

Features
Interface (How to create/join a class?)
- Creating a classroom
- Naming a classroom
- Classroom code
- Asking participants to join students

Settings
- What do we mean by settings?
- What are the types of setting?
- General & Specific types of settings

Structure of a Classroom
- Visible features of GC
- Hidden features of GC

Day 2

Running Your Classroom

Managing Teachers and Students
Adding Students
Adding Teachers

Communicating with Your Students
Various way of posting announcements

Designing Your Classroom
How does one customise your Google Classroom?
How to create a header?
How to add Topics?

Types of Assignments
Assignment with manual marking and use of Rubric
Assignment with automatic marking and grading

Day 3

Assessment for Learning

Google Classroom Workflow
- Enrolling students in the classroom
- Assigning tasks to students
- Evaluating submitted assignments
- Scoring and grading
- Giving and taking feedback
- Making teaching-learning experiences more personalized

Day 4

Diving Deeper
Other Features

Google Meet
How does one set up a class/meeting using Google Meet?
How does one invite students to a Google Meet class?
What are the features available on Google Meet?

Feedback Bank
How to use the Feedback Bank to give meaningful feedback to students on Google Classroom?
