www.indiacsrsummit.in
When small, medium and large companies, not-for-profits, tech innovators and government agencies come together to generate bold ideas, the nation benefits from more groundbreaking innovations, strategic and sustainable development, and social welfare.

At CSRBOX, we bring global leaders, forward thinkers and impact creators on the same platform, to deliberate, discuss, demonstrate and draw ideas to mobilize and channelize resources towards nation building and community development. Our collective aim is to build a strong narrative for India's development sector and discuss how we must reassess, realign and rethink sustainable development by being ingenious, innovative and insightful.

India CSR Summit

The India CSR Summit, hosted by CSRBOX and NGOBOX, is the largest CSR forum in India bringing together companies, CSR foundations, government agencies, non-profits, social businesses and advisory firms to network, collaborate and scale up initiatives in the development and impact sector.
