The COVID-19, as of today, has accounted for about 473308 positive cases and more than 114787 deaths. While the world is preparing for combating the pandemic through self-isolation and strategic diagnostics & treatment, it faces challenges in terms of economic loss, inadequate health infrastructure and difficulty in meeting the basic needs of its marginalised community.

In times of crisis, the world leaders have vital responsibilities to take. As the COVID-19 continues to spread across the globe, we observe that many global & individual philanthropies, NGOs, bilateral/multilateral organisations, dedicated coalitions and HNI are coming forward to support in combating the pandemic through commitments of cash and in-kind donations.

Through this study, we bring to you the response to COVID-19 by the top 50 global organisations and leaders. So far, the commitment has been of **1159 M USD** across the various geographies and aims to support a variety of combat mechanisms like **research, systemic preparedness, community support, medical infrastructure, relief funds & grants to local organisations.**
